

# RADIOACTIVE WASTES

## The Questions Multiply

Thursday, April 20, 6 pm

**Minis Hall, Kenora Super 8**  
**240 Lakeview Drive**

**DR. GORDON EDWARDS**

CANADIAN COALITION FOR NUCLEAR RESPONSIBILITY

Dr. Gordon Edwards is a retired professor of mathematics and science and serves as an expert advisor on nuclear issues and president of the Canadian Coalition for Nuclear Responsibility (visit CCNR.org). One of his many strengths is his ability to communicate with the public on the realities of radioactive risks, including the risks of nuclear waste transportation and burial. The Nuclear Waste Management Organization is studying an area between Ignace and Dryden as a potential site for processing and burying high-level nuclear waste.
